Bruce,

I have informed you that I am looking into the issue and am evaluating all of my options on resolving the problem. I appreciate your concern and take my responsibility seriously. I will address the issue.

If you would like to be informed when I have resolved the issue, I am happy to keep you informed.

Thank you for your concern. I'm confident that we will resolve the issue soon.

Best regards,

Lorena Parker

I have provided you with photographic and verifiable evidence of the identity of one of the individuals. My understanding from our recent phone conversation regarding this activity is that you consider this violation of the municipal code to be a personal issue that you are not in a position to take any action on. Please confirm if this is your position... I do not want to misrepresent your position on this issue. If you would care to explain yourself (in writing) in greater detail regarding the point I am making above, it would be appreciated.

I have observed two instances and have been able to document one, and in both cases when I talked to the perpetrators they said the worked for Renascence. Since they both had key access to the basement of the Cabrillo Hotel, I find that explanation very believable. It appears that Eric is using San Pedro Clean

I personally observed at least one of the rolls of carpet in the foreground of the same shot come out of the back of a pickup truck driven by another of Eric's employees. The other shots are indicative of how this alley has looked over the last year due to a lack of dumpster capacity and furniture and mattress "magically" a

> We have seen an increase in illegal dumping in the alley, the problem we have is that when we lock the dumpster people break the locks at night, **not to mention the furniture that magically appears**. But, I don't need to tell you, your stuck looking at it as are we. Our plan is to install cameras and signage to try and catch the dumpers, until then, we do have employees checking and cleaning the alley. The bar does pay a recyclers to take away their bottles, under normal circumstances the can is more than adequate. as it is emptied three times a week. We want to get a handle on this as much as you do, it's not good for anyone.
